1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lagarde. Lagarde discloses a cord winding device comprising a lift cord 7, a threaded winding screw 5, a threaded guide body 6 having a cord pulling member 10.

2. Claims 1,3,6-8,10-12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Nakamura. Nakamura discloses a cord winding device comprising a lift cord 6a,b, a threaded winding screw 8, a threaded guide body 17a having a cord-pulling member 26,26a,26b, a rotating shaft 11,18, a driving device 12.

3. Claims 4,5,9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Chen '090 and '927, Huang, Bechtler, Wen et al.
